

## Production/Process Engineer

-  Do you have experience working in a Production Process Engineering role?
-  Do you have good experience in improving manufacturing build procedures and processes?
-  Are you a team player with a proactive can do attitude?

### Who are GDS Instruments?

GDS have been at the forefront of designing computer controlled systems to evaluate the mechanical properties of soil and rock for over 40 years and are highly regarded within the geotechnical and earthquake engineering design sector. We take pride in our company mission and vision statements which underpins our core staff values as we work together to be the best in our field.

**Our Mission:**  
Dedicated to exceeding customer expectations by providing quality, service and on time delivery whilst listening to our customers needs.

**Our Vision:**  
To be the world leader in advanced software controlled geotechnical laboratory systems.

### Purpose of the role:

As the Production/Process Engineer you will be responsible for the implementation of production processes and procedures, with a focus on leading all aspects of manufacturing to reduce waste, improve quality and safety, and reduce operating costs. Working closely with Engineering to strive for manufacturing best practice and design for manufacture.

Responsibilities will include; Generating and maintaining standard operating procedures in order to standardise work methods, conduct time and motion studies, design jigs and fixtures, support and lead continuous improvement initiatives, and ensure all BOM requirements are taken into account from product conception to the finished result.

### Key requirements:

- Minimum HNC / HND or equivalent in a mechanical, engineering or manufacturing discipline.
- Experience of improving manufacturing processes
- Demonstrates good understanding of engineering, scientific and other technical information
- Strong problem-solving skills and a logical approach
- A willingness to keep up with current and developing engineering trends and to champion them
- Experience in training operators

### Employee Benefits:

GDS continuously strive to introduce new ways to ensure that our staff have a great work / life balance.

• Company bonus scheme	• Free daily catered lunch
• Share incentive scheme	• Free fruit delivered weekly
• Workplace pension scheme	• Cycle to work scheme
• General life assurance	• Wellbeing break out area
• Employee Assistance Program	• Wellness activities and incentives
