

Warehouse Operative

Do you have experience working in a busy warehouse?

Do you have a keen eye for detail?

Are you a team player with a proactive can do attitude?

Who are GDS Instruments?

GDS have been at the forefront of designing computer controlled systems to evaluate the mechanical properties of soil and rock for over 40 years and are highly regarded within the geotechnical and earthquake engineering design sector. We take pride in our company mission and vision statements which underpins our core staff values as we work together to be the best in our field.

Our Mission:

Dedicated to exceeding customer expectations by providing quality, service and on time delivery whilst listening to our customers needs.

Our Vision:

To be the world leader in advanced software controlled geotechnical laboratory systems.

Purpose of the role:

GDS are looking for a Warehouse Operative to join their busy Warehouse department and support their teams with the day-to-day running of the company warehouse processes.

The role is varied and requires an individual to be medically fit and capable of moving and lifting light loads. They will need to have a hands-on approach with a keen eye for detail and willingness to learn.

Responsibilities will include; checking of and entering of goods-in, stock control duties including labelling and location allocation, stock movement processing, picking of works orders and assisting with packing as and when required.

Key requirements:

- Previous experience in a similar environment
- Medically fit and capable of lifting light goods
- Excellent organisational skills with exceptional attention to detail
- Excellent communication and people skills
- Enthusiastic team player
- Pro-active hands-on approach

Employee Benefits:

GDS continuously strive to introduce new ways to ensure that our staff have a great work / life balance.
